He attended the BTW&SA meeting at which time the Authority members voted 3 to 2 to approve the Agreement between Blair Township and the BTWSA. Based on discussion following that meeting, the Engineer has recommended that the project not be let for bid until January 2016, thus creating a need to edit the approved Agreement. Supervisor Silvetti made a motion to approve the Agreement as signed by the Authority, adding the January bid stipulation. Supervisor Brown seconded the motion. Also regarding the Greendown Acres Mobile Home Park CDBG-funded sewerage project, the Agreement between Blair Township and Keller Engineers was discussed. Following discussion, it was determined that Section 3; Compensation would not exceed $25,000 without prior authorization from the Board of Supervisors. Supervisor Silvetti made a motion to approve the Agreement between Blair Township and Keller Engineers, to include the Compensation cap not to exceed $25,000 without prior approval by the Supervisors. Supervisor Brown seconded the motion. The motion passed with a unanimous vote. It was understood that the bidding process would not take place until January 2016.

A written report, with photographs, confirmed that the site is in compliance. The BCCD provided written documentation that they are satisfied at this time with the site condition. Supervisor Silvetti moved to discontinue the Complaint in Equity. Supervisor Brown seconded
the motion. Vicki Wray asked what the mowing regulations are for a 3:1 slope. Teddie Kreitz responded that 3:1 slopes are not too steep to mow, that’s why most ordinances set this limit. However, if not mowed, a 3:1 slope can be considered as a meadow, as opposed to a lawn, which is also acceptable. The motion to **discontinue** the **Blair Township vs Thomas Richardson Complaint in Equity** passed with a unanimous vote.

Supervisor Silvetti commented on the **Code Enforcement Officer position**, noting that the Township to date has received 14 applications/resumes. The job was posted with PA Career Link. The Supervisors have individually reviewed the resumes. It was decided that they would choose the top 3 candidates and schedule interviews in the near future.

Attorney Matthew Gieg, at the request of the Board of Supervisors, has made numerous attempts to locate the property owners of a dilapidated structure at **2198 Reservoir Road**. At this juncture it is necessary to take formal action should the Township decide to enter the property and demolish the dilapidated structure. The formal action includes obtaining a Court Order, followed by Petitioning the Court. Supervisor Silvetti made a motion to proceed with the legal process, then moving forward with the demolition process using CDBG funds under blight elimination, and finally placing a lien in favor of the Township on the property located at 2198 Reservoir Road. Supervisor Brown seconded the motion. The motion passed with a unanimous vote.

Teddie Kreitz addressed the Supervisors regarding a **DEP Stormwater Funding Grant** opportunity. She stated it would be wise for the Township to consider applying for the grant in furtherance of addressing MS-4 requirements, noting that the Township parking lot would be a great project. Teddie provided a Stormwater Quality Treatment Design Sketchbook, noting that the suggested FocalPoint Biofiltration System and Beehive Overflow Filter are not on the Chesapeake Bay Watershed Program list of Best Management Practices. The stormwater tanks would be housed underground. Material for the project would be approximately $11,000 and the Township would provide in kind match, which could include excavation and installation. In addition, the maintenance to the system would be free during the first year. A stormwater basin at the end of Hillside View Drive would also prove to be beneficial at a cost of approximately $140,000. This project would be done in cooperation with the Center for Watershed Protection. When asked, Teddie estimated the cost of completing the Grant Application(s) on behalf of the Township would be approximately $1,000 per application. Supervisor Silvetti made a motion to have **Keller Engineers** proceed with preparing the **DEP Stormwater Funding Grant Application(s)**. Supervisor Brown seconded the motion. The motion passed with a unanimous vote.

The Supervisors are pleased that the Township pension plans are in good shape. The motion passed with a unanimous vote.

At the request of Highway Foreman, Lance Dick, Supervisor Brown made a motion to approve adding **East Side Concrete** and also **Lane Metal Products** to the Township’s **Approved Vendor List**. Supervisor Silvetti seconded the motion. The motion passed with a unanimous vote.
Other Business:

Supervisor Silvetti commented on a meeting scheduled for September 29th at 6:00 P.M. at the Blair County Courthouse to discuss CDBG issues. This is relative to the change in administration of CDBG grants of the Entitlement Communities with populations under 10,000; these will be combined into single contracts under individual county administration. The reason for this change is because DCED wants to reduce the number of CDBG grant contracts statewide. Blair County is reportedly placing CDBG administration under its Department of Social Services. CDBG Grant Applications for 2016 are due in December. Supervisor Silvetti encouraged concerned parties to attend the meeting on the 29th.

Jim Laird, representing the Barnhart Land Development plan, reaffirmed that there is no Bond, no Developer’s Agreement and no Probable Costs Summary required for the Barnhart project. It was reaffirmed that all other information is correct.

There being no other business, Supervisor Brown made a motion to adjourn. Chairman Lasek seconded the motion. The motion passed with a unanimous vote.

The meeting adjourned at 8:10 p.m.
