Supervisor Silvetti stated that the Developer’s Agreement for the **Pleasant View Phase 6 Subdivision** plan needs to be re-drafted. He noted that an informal discussion involving himself, Chris Jancula and Jeff Holtzinger was held prior to the meeting, and referenced as well conversation addressing Pleasant View Phase 6 at the Work Session of June 20th.

Acting Solicitor Jancula asked for clarification relating to the private driveways. Teddie Kreitz relayed Ben Piper’s concerns with any potential for an incomplete roadway. Mr. Holtzinger commented that the private infrastructure is not a legal argument and if it were a valid concern, would be willing to meet with Ben Piper. He questioned whether Mr. Piper had visited the site. Teddie stated she wasn’t sure he had, but that he is familiar with other Pleasant View development phases.

Mr. Holtzinger stated that it is up to the Supervisors to make a determination. Acting Solicitor Jancula stated it would be best to have the public improvements completed and approvals in place.

Mr. Holtzinger requested that the preliminary plan approval be granted, questioning the Township’s authority to require surety on a private driveway. Supervisor Silvetti questioned what would happen should one or more of the property owners not fulfill their part of the agreement. Supervisor Brown stated that the SALDO does not require surety for private driveways. Teddie Kreitz questioned the difference between escrow and surety and the actual cost for the driveway construction. She also noted that the Blair County Conservation District is unable to enforce stormwater management violations without DEP cooperation. Mr. Holtzinger stated that the stormwater provisions for Phase 6 are already way over designed, originally meant to accommodate 58 lots, which have now been reduced to nine. Also, there are multiple easements that interfere with Phase 6, including a powerline and Sunoco easement, both of which create a stormwater buffer. He said there may be better, shorter driveway paths that he intends to have his surveyor consider.

Supervisor Silvetti suggested that the Developers Agreement restrict the sale of lots pending finalization of construction as per the design agreement. Moreover, while individual property owners would be forced to cooperate with each other and abide by the restrictions and covenants, the Township would have no legal obligations or rights. Supervisor Brown recalled the Cedar Heights situation from years ago. In this regard it was commented upon that Supervisors at that time were ‘bullied’ to take over the roadway, this despite having had no responsibilities. Acting Solicitor Jancula confirmed that he is to remove the reference to surety and private driveways from the Developers Agreement.

Chairman Lasek asked if this conversation didn’t fall under the guidelines of an Executive Session. Supervisor Silvetti stated it was technically a policy change request and wasn’t for any one specific employee. Chairman Lasek declined comment without knowing the effect of the specific cost.
