The Snare Office Building Land Development Plan, represented by the owner, Anthony Snare, the engineer, Ben Piper and the contractor, Joe Crossman was discussed in detail.

Chris Dutrow commented that items 4 through 7 of the review letter of July 2nd were addressed and reaffirmed that the water approval letter was received. Solicitor Routch was asked to give a legal opinion about the setback issue. He commented that in his opinion a waiver request was not required, noting that the developer has the right to design the site and that, in his opinion, the Land Development Ordinance is not specific enough in this regard.

Chairman Silvetti stated that, in his opinion, some of the Township Ordinances do not allow for flexibility, noting the example of a property line adjoining a blacktopped parking lot. The sidewalk placement, as recommended by the Blair County Planning Commission was discussed. Supervisor Brown stated that although he is in favor of sidewalks, in this case he felt the sidewalk was unnecessary as it would lead to nowhere, i.e., would not connect to any adjacent sidewalk. Supervisor Amigh stated that he felt the purpose of sidewalks was to join new developments together but is not relevant in this case.

Joe Crossman asked that the Township assign the Code Officer the duty of contacting the Alliance Church to remove a sign that is in the Township Right of Way, and on the Snare property. The sign also includes an active electric meter. Officer Ott agreed to contact the church, if appropriate.

The James and Lori Benner Lot Merger Plan as presented by David Butterbaugh of P.J. Lehman was discussed. The deeds of conveyance for the portion of Railroad Street (alley) and Second Avenue, as recorded by Attorney Cohen, must be noted on the plan. This is residential property and has no impact. Solicitor Routch commented that it is not the Township’s obligation to determine adversity among the adjoining property owners. Sewage planning is necessary due to the placement of a mobile home on the property. A capacity letter from Freedom Township is in place.

Chairman Silvetti made a motion to approve the James and Lori Benner Lot Merger Plan contingent on the engineering comments outlined in the July 9th letter being satisfied. Supervisor Brown seconded the motion. The motion passed with a unanimous vote, but was later rescinded.

David Butterbaugh outlined several other items on the plan, noting that Officer Ott has been very beneficial and cooperative with the Benner situation. Mr. Ott noted as well that Mr. Benner has been cooperative with his requests.

It was noted that there is a revision to be drawn on the plan to compensate for an existing pool which appears to be a structure encroachment. Following this finding the Supervisors determined it best to rescind the approval motion. Chairman Silvetti made a motion to rescind the approval of the James and Lori Benner Lot Merger Plan. Paul Barton, a property owner in Pleasant View Phase II, addressed the Supervisors. He reminded them of a signed petition submitted to the Supervisors two years ago, requesting the placement of the sidewalks on the South-side of Teds Way. He noted that he is a 14-year resident and that one of the selling features of the Pleasant View Development was the sidewalks. Recently, a billboard at the cul-de-sac on Teds Way indicates that two lots were sold, he questioned why the proceeds of those two lots couldn’t be used for sidewalk construction and why Mr. Holtzinger was allowed to renege on his commitment. Solicitor Routch commented that the Township could try to compel Mr. Holtzinger to take responsibility.

Chairman Silvetti will contact the contractor that placed the sidewalk on the North-side of Teds Way for a rough estimate of the cost to install the South-side. The Township will review the plan as recorded at the County to verify that the sidewalks are on the recorded plan. Mr. Barton is to be updated via email.
