Jessica Sorge and Mary Bolt of the Hollidaysburg American Legion Ambulance Association addressed the Supervisors. Chairman Silvetti, referring to the August 2019 Blair Township/AMED Agreement, addressed their concerns that the service areas were altered. He assured them that the Township’s August motion approving the Agreement included retaining service areas previously in place, with no variation. However, the service location maps attached to the Agreement apparently show 102 residences previously in the dispatch area of the Hollidaysburg Ambulance Association now in the AMED/Duncansville EMS dispatch area. The Supervisors reaffirmed that they had no interest in changing areas of service. Ms. Bolt stated that should the Duncansville Ambulance not be staffed at the time of an emergency, the call could be directed to AMED rather than to the nearer ambulance (Hollidaysburg), regardless of the AMED ambulance being at further distance. Ms. Sorge commented that the Hollidaysburg Association has been in existence since 1939 and is fully staffed and ready to serve, also noting that they offer many public service classes and training.

Grant Wills of Blair County GIS Mapping will be contacted to review the previous map and the current map, and to assist in resolving this matter.

Chairman Silvetti stated that it will be up to the individuals concerned with the historical issues to voice their concerns, should they choose to do so.

The parcel has since been referred to as the “Fort Fetter Park”. A DCNR grant in the amount of $3,000 was awarded through SAP&DC as a design cost match. The deadline to expend the grant is June 30, 2021. Two proposals (Stiffler-McGraw and Stephen Parks & Associates) were received for the Fort Fetter Community Park Design. Stiffler McGraw proposed $8,200 and Stephen Parks & Associates proposed not to exceed $6,000. It was noted that Stephen Parks & Associates have significantly more experience with park design. Chairman Silvetti addressed the Stormwater issue, referencing an Excel spreadsheet that he developed which shows, for discussion only, a first storm water impact fee alternative. He stated that the issue now is how to pay for the needed improvements. If imposed, a stormwater fee might include two tiers, the annual MS-4 obligation of $90,405, and secondarily, debt service on loans to pay for the identified storm water control projects. He then proceeded to review the spreadsheet, noting that a base fee of $35 per Township real estate parcel would cover the MS-4 costs. An estimated borrowing of $1.75 million for 20 years at an interest rate of 3 ½ % for capital storm water control projects would require annual debt service of $143,000. The impact fee showing on the spreadsheet would generate $233,405 per year in revenue, enough to cover all storm water costs as currently projected.
Basing any stormwater impact fee on each real estate parcel’s impervious area appears to be the fairest methodology. Chairman Silvetti suggested the Supervisors might experiment with the spreadsheet and offer additional suggestions. He noted that he is open to suggestions following their review. Finally, he reviewed the budgetary imperative for removing stormwater costs from the general fund budget, emphasizing, by way of example, that the funds for a Township Manager have been reallocated to the Township’s MS-4 ISC obligation.

The Blair Township Highway Department currently has a vacancy. The position for a highway crew member will be advertised. The CDL requirement will not be mandated.

The recent FCC ruling with reference to the Municipal Franchise Fees was briefly discussed. If implemented, the ruling would allow the cable companies to reduce franchise fees by the retail value of a free cable services to or on behalf of municipalities.

Betty briefly reviewed items of interest in her preparation of the draft 2020 Budget for consideration by the Supervisors. She commented that the closing of NAC and GBW Railcar Services (formerly Berwind/Millennium Rail), will likely have a negative effect on the revenue received from the Earned Income Tax and the Local Services Tax. The Norfolk Southern Railroad layoffs also could negatively affect the Earned Income Tax. Real Estate Transfer Tax is exceptionally low in comparison to the past few budget years. The reassessment hearings continue to affect real estate revenue. The annual benefit quote for hospitalization is not received to date. The 2020 employee wage increase is set a 2.5%. The annual Auditor Generals Act 205 deposit covered the entire 2019 MMO Pension bill for both the Police and Non-uniformed Pensions. A Stormwater Impact Fee would have a positive effect on sustaining a balanced budget. The Police Department has an unexpended LST balance, to be carried into 2020, if it remains unspent through 2019. The upfit for the new police vehicle and the car cameras are big ticket items that remain. Proposed expenditures for 2020 were not received to date. The Highway Department turned in a reasonable ‘wish list’. Funds will be budgeted out of Liquid Fuels for salt, line painting, stone, etc., with the next suggested paving project, Mill Road, being on hold pending the completion of the Sunoco Pipeline Project. 20% of the Liquid Fuels allocation can be put toward equipment.
