## Requirement checklist to obtain a building permit for a:

# DEMOLITION

PLEASE NOTE – FOR ALL RESIDENTIAL OR COMMERCIAL DEMOLITIONS: Partial Demolition OR close proximity to other structures may require additional information and details. If you have any question about the level of details needed call the PMCA office nearest you for further clarification so your project is not delayed due to lack of necessary information. *Thank you* 

	Completed Demolition 1 page Application (needs to be legible and signed)		
	Land Use Permit (signed/approved by the Municipality)		
	Detailed Project Description – explain in a narrative and please be legible – hard to read documents cause delay in the application review process		
	2 sets of drawings (drawings requirements will vary – see the note in the boxed section above)		
	2 copies of site plans (include all existing structures, proposed structure and their distances to all lot lines)		
	Copy of the Contractors Certificate of Liability Insurance if contracting out the work		
	OR If doing the work yourself submit a signed Workers Compensation Certificate of Liability		
	Driving directions from a known landmark or intersection		
<u>NOTE</u> :	All Commercial Buildings to be demolished must notify DEP per <i>NESHAP Regulation 40 CFR</i> 61 Subpart M – Call DEP for more details: 814 946-7290		
After su	bmitting all required documents your application will be reviewed.		
PMCA will contact you to let you know if your application has been approved or denied.			

- ✓ When the project is approved you will be notified the Building Permit is ready. Prior to obtaining the building permit all charges (i.e. administrative, inspections fees) must be paid.
- ✓ Be advised additional fees may be applied, throughout the project, for failed or missed inspections.

ALWAYS CALL 811 BEFORE YOU DIG

# **Demolition Permit Handout**

### INFORMATION ON DISCONNECTION OF UTILITIES

# A - Owners of Residential Properties:

Owner must pay for and obtain a demolition permit from the building department before the residential structure is to be demolished or removed. You may request, for a fee, to be determined and paid for by owner, at time of your request, that utilities be disconnected on a certain date or within a certain period of time. The applicable agencies need lead time prior to disconnection of services. Please note that most agencies are closed during weekend and holidays.

### **Dust Control**

The owner shall use all means necessary to prevent dust from being a nuisance to the public, neighbors, or local businesses during the construction period. Owner should not perform any demolition work without spraying water over the demolition work area to control the dust if it appears to be a problem.

### **Storm Water Pollution Prevention**

The Owner shall prevent any material created as a result of his activities from entering the storm drain system. The storm drain system includes, but is not limited to, the gutter, the roadway, creeks, ditches, and any underground storm water conduit.

Regardless of the size and area of the property, the owner shall install straw wattles or other appropriate erosion and sedimentation (E&S) control features or devices along the entire length of the drain and discharge sides of the property. E&S controls shall be placed in a manner consistent with standard industry practice."

Agencies	to	contact

<u>Electric</u>	Water	Telephone
Gas	Sewer	Cable

Submit permit application at least two weeks prior to desired start date to PMCA – contact the office where your application was submitted

#### Call three (3) working days prior to start of work:

- 1 Contact the office where your application was submitted see letterhead for contact information to confirm when demolition will start.
- 2 To disconnect the existing electric, water, and sewer lines to your property, some utilities may require a greater lead time.
- 3. Call PA ONECALL, 72 hours before any excavation, (800) 242-1776

### **Encroachment Permit**

You may need to take an encroachment permit from Penn DOT Engineering Division or the municipality if the demolition work involves work to be carried out into public right of way. Owner is responsible for all the required fees

## **Abandoning Wells & Septic Tanks**

Call your municipal SEO Owner is responsible for all the required fees

# B – Owners & Contractors:

Owners who wish to demolish their properties, and contractors with a contract to demolish any structure, must pay for and obtain a demolition permit from the building department before the structure is to be demolished or removed. The Owner and/or Contractor shall arrange to have all utility services connections disconnected, and capped off at the curb side, at his own expense, prior to start of demolition work. Owner and/or Contractor must call the building department, and other appropriate agencies, for inspections to verify the work was done properly and according to the acceptable construction standards. Please note that most agencies are closed during weekend and holidays.

## **Dust Control**

The Owner and/or Contractor shall use all means necessary to prevent dust from being a nuisance to the public, neighbors, or local businesses during the construction period. Owner and/or Contractor should not perform any demolition work without spraying water over the demolition work area to control the dust if it appears to be a problem.

## **Storm Water Pollution Prevention**

The Owner and/or Contractor shall prevent any material created as a result of his activities from entering the storm drain system. The storm drain system includes, but is not limited to, the gutter, the roadway, creeks, ditches, and any underground storm water conduit.

Regardless of the size and area of the property, the owner shall install straw wattles or other appropriate erosion and sedimentation (E&S) control features or devices along the entire length of the drain and discharge sides of the property. E&S controls shall be placed in a manner consistent with standard industry practice."

### Agencies to contact

Call five (5) working days prior to start of work:

- 1 Contact the office where your application was submitted see letterhead for contact information to confirm when demolition will start.
- 2 To disconnect the existing electric, water, and sewer lines to your property, some utilities may require a greater lead time.
- 3 . Call PA ONECALL, 72 hours before any excavation, (800) 242-1776

### **Encroachment Permit**

Owner and/or Contractor need to take an encroachment permit from Penn DOT Engineering Division if the demolition work involves work to be carried out into state right of way. Owner and/or Contractor are responsible for all the required fees.

### **Abandoning Wells & Septic Tanks**

Call your municipality. Owner and/or Contractor are responsible for all the required fees.

### **Environmental Health**

Buildings built prior to 1/1/1978 are presumed to contain lead based paint. Buildings built prior to 1/1/1980 are presumed to contain asbestos.

For information about removal of lead based paint and asbestos containing materials, contact:

The Pennsylvania Department of Environmental Protection

PA DEP South Central Region 909 Elmerton Avenue Harrisburg, Pa. 17110-8200 717 705-4700

# DIRECTIONS TO THE SITE LOCATION

Please give directions to the work site from a known landmark and/or intersection. Use a directional drawing also in the space provided below if that would assist.

Applicant:	Phone:	
Site Street Address:		
Directions:		
Use this space if needed to further clarify the site location:		

Please Note: Inspectors cannot inspect what they cannot find, Be certain the directions are clear. Use Road or Street names, distances between turn offs, and the direction of that travel (North South East or West). Landmarks are very helpful.

When applying for a building permit you need the following:

- Fill out the appropriate application answering all question applicable to your job. Application must be legible and signed. (2 copies)
- A Site Plan showing the location of the existing improvements/structures on your property and approx. distances to all property lines, well, septic system, driveway, etc. Also show the location of the proposed construction. (2 copies)
- Drawings showing details of the construction you want to do. (2 copies)
- If you are doing the work please fill out the Workers Comp Cert of Liability OR if you will be contracting out the work PMCA needs a copy of the contractor's certificate of liability insurance.
- A copy of the signed Land Use Permit from the Municipality (Borough or Township)

# After Building Permit Application is submitted:

- After submitting <u>all</u> required documents your application will be reviewed.
- PMCA will contact you with an approval or denial.
- If approved, your permit will be issued and the inspection & administrative fees are due when you pick up the permit. You will also obtain a copy of your original application and stamped set of plans.

## After the Building Permit is issued:

- The Building Permit placard and municipal placard are to be visible on site at all times during the construction process.
- To schedule and inspection call the office where your permit was submitted to schedule an inspection. Be prepared to have your Permit Number, address and type of inspection you are requesting. If you call on a work day and provide all the needed information prior to 3:00 p.m. every effort is made to schedule the inspection for the following work day.
- The copy of your application and approved plans are to remain on site when the building inspectors come for inspections. Be advised: we <u>cannot</u> inspect if these are not on site and you may incur additional costs due to extra trip(s) by the inspector.

# ✓ Checklist for the Site Plan to be provided with the Building Application

- 1. Site plans are essential and must be clearly legible and reproducible regardless of the reason for requesting the permit.
- 2. Use an 8 <sup>1</sup>/<sub>2</sub>" X 11" sheet of paper at minimum.
- 3. After locating all the structures on your property show distances in feet to the lot lines and between the structures.

### Provide dimensions of the property getting the proposed improvement

- o Drawing of approx. property layout (Can use hand drawing, photocopy of survey, etc.)
- o Acreage (Refer to deed or survey drawing)
- o Approx. boundary dimensions (Can be from the deed, field measurement, or a survey drawing)
- o Parcel Number (Not mandatory obtained from deed or property tax notice)

### Existing Buildings / Structures with Corresponding Dimensions

- o Houses
- o Sheds
- o Barns
- o Swimming Pools

- Other buildings or structures on the property Location of on lot well and septic IF
- applicable

Deck / Patios

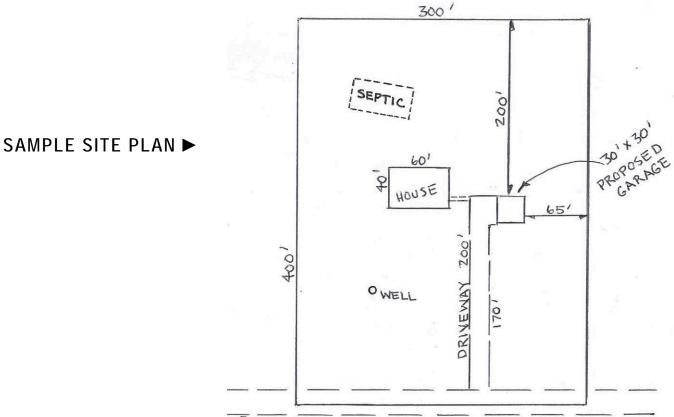

0

0

0

### Proposed Improvement(s)

- o Proposed Structure Dimensions (House, Shed, Barn, Addition, Deck, etc.)
- Location of Proposed Driveway and Sidewalk
